BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of	
Application by Aqua North Carolina, Inc.,) ORDER SCHEDULING
202 MacKenan Court, Cary, North Carolina 27511,) HEARINGS, ESTABLISHING
for Authority to Adjust and Increase Rates for) DISCOVERY GUIDELINES,
Water and Sewer Utility Service in All Its Service) AND REQUIRING
Areas in North Carolina and for Approval of a) CUSTOMER NOTICE
Water and Sewer Investment Plan)

BY THE PRESIDING COMMISSIONER: On June 30, 2022, Aqua North Carolina, Inc. (Aqua or Company), filed an application with the Commission seeking authority to adjust and increase its rates for providing water and sewer utility service in all of its service areas in North Carolina and for approval to establish and implement a Water and Sewer Investment Plan (WSIP) pursuant to N.C. Gen. Stat. § 62-133.1B and Commission Rule R1-17A. Aqua proposes new rates for a base year and the three rate years included in its WSIP. Aqua serves approximately 84,000 water customers and approximately 21,000 sewer customers in 51 counties throughout the State of North Carolina. The proposed rate increase is based on a test period ending December 31, 2021.

On July 26, 2022, the Commission issued an order declaring this proceeding to be a general rate case and suspending the proposed new rates for up to 270 days pursuant to N.C. Gen. Stat. § 62-134 (Suspension Order).

With the exception of approved tariff revisions to the rates of bulk purchased water and/or sewer systems, Aqua's uniform water and sewer rates, Brookwood water rates, and Fairways water and sewer rates have been in effect since October 26, 2020, pursuant to the Commission's Order Approving Partial Settlement Agreement and Stipulation, Deciding Contested Issues, Granting Partial Rate Increase, and Requiring Customer Notice issued in Docket No. W-218, Sub 526. The present Water and Sewer System Improvement Charges (WSIC/SSIC) have been in effect for service rendered on and after July 1, 2022, pursuant to the Commission's Order Approving Water and Sewer System Improvement Charges on a Provisional Basis and Requiring Customer Notice issued in Docket No. W-218, Sub 526A on June 21, 2022. If the Company's request for approval of a WSIP described below is granted, the WSIC and SSIC will be discontinued during the term of the WSIP pursuant to N.C.G.S. § 62-133.1B and Commission Rule R1-17A. If the WSIP is not approved, the Company plans to immediately continue use of the WSIC and SSIC.

The Company seeks approval of a WSIP, which is a rate-making mechanism that will allow the Company to recover the reasonably known and measurable capital

investments and anticipated reasonable and prudent expenses approved under the WSIP for a three-year period without the need for a base rate proceeding during that period. In support of its request for a WSIP, the Company has filed a three-year plan with its application which lists proposed water and sewer capital investment projects, anticipated water and sewer expenses, and the proposed rates to be effective in each year of the WSIP. By law, any rate adjustment allowed under an approved WSIP shall not, on an annual basis for years two and three of the WSIP, exceed five percent of the utility's North Carolina retail jurisdictional gross revenues for the preceding plan year. The Commission may, however, consider the addition of certain unplanned emergency capital investments even if such expenditures would cause the cap to be exceeded. The Commission may also terminate or modify any WSIP approved in this case if it determines that termination or modification is in the public interest.

In its application, Aqua proposes to increase its rates and charges to produce an additional \$13,655,146 in gross revenues or an increase of approximately 19.2% in its base case. If its WSIP is approved, Aqua further proposes to increase its rates and charges to produce an additional \$18,064,678 in gross revenues over present rate revenues, or an increase of approximately 25.4% in Rate Year 1¹ to be effective January 1, 2023; an additional \$4,303,037 in gross revenues, or an increase of approximately 4.8% in Rate Year 2; and an additional \$4,579,353 in gross revenues, or an increase of approximately 4.9% in Rate Year 3.

In addition to the request to adjust and increase rates and approve a WSIP, Aqua's application requests continuation of the Conservation Pilot Program approved by the Commission in Docket No. W-218, Sub 526; approval to consolidate residential sewer customers located in the Park South Station, Huntley Glen, and Parkway Crossing service areas under its Aqua Uniform Sewer rate design; and approval of a Sewer Use Rule and Customer Assistance Program.

The Company also requests authority to implement a Consumption Adjustment Mechanism (CAM) in each of its three water rate divisions pursuant to N.C.G.S. § 62-133.12A if the WSIP is not approved.² According to the Company's application, the CAM, if approved, would true-up the average per-customer consumption levels used to calculate rates necessary to achieve an approved revenue requirement.

Aqua states in its application that the proposed rates it requests are necessary due to increased capital investments and operating costs to comply with service and regulatory requirements, increased operating costs to maintain or upgrade the level of service, and changes in consumption.

¹ The proposed approximately \$18,064,678 or 25.4% overall revenue increase in Rate Year 1 includes the approximately \$13,655,146 or 19.2% overall revenue increase in the Company's base case and an additional \$4,409,532 or 6.2% overall revenue increase associated with Rate Year 1.

² Pursuant to N.C.G.S. § 62-133.12A, any rate adjustment mechanism authorized pursuant to N.C.G.S. § 62-133.12A shall be discontinued during the term of any WSIP.

Pursuant to the provisions in N.C.G.S. § 62-135, Aqua intends to implement its proposed rates on a temporary, interim basis, under bond and subject to refund, effective for service rendered on and after January 30, 2023,³ assuming the Commission has not entered a final order by that date.

Based upon the foregoing and the record in this proceeding, the Presiding Commissioner hereby establishes the procedural schedule, including filing requirements of Aqua and other parties, and requires public notice.

The guidelines regarding discovery in this docket, subject to modification for good cause shown, are as follows:

1. Any deposition shall be taken before the deadline for the filing of the Public Staff – North Carolina Utilities Commission (Public Staff) and other intervenor testimony, or as agreed to by the parties should the Company require depositions. A notice of deposition shall be served on all parties at least seven business days prior to the taking of the deposition.

2. Any motion for subpoena of a witness to appear at the evidentiary hearing shall be filed with the Commission before the deadline for the filing of the Public Staff and other intervenor testimony shall be served by hand delivery or facsimile to the person sought to be subpoenaed at or before the time of filing with the Commission, and shall make a reasonable showing that the evidence of such person will be material and relevant to an issue in the proceeding. See N.C.G.S. § 62-62. Unless an objection is filed, the Chief Clerk shall issue the requested subpoena within one business day of the filing of such motion.

3. Formal discovery requests related to the general rate case application and the Company's prefiled direct and supplemental testimony shall be served on the Company by hand delivery, facsimile, or electronic delivery with the Company's agreement, no later than 14 calendar days prior to the filing of the Public Staff and other intervenor testimony. The Company shall have up to ten calendar days to file with the Commission objections to the discovery requests on an item-by-item basis, but in no event shall objections be filed later than ten calendar days prior to the deadline for the filing of the Public Staff and other intervenor testimony.

4. Formal discovery requests related to the prefiled direct testimony of the Public Staff or other intervenors shall be served by hand delivery, facsimile, or electronic delivery with the agreement of the receiving party, no later than three calendar days after the filing of that party's testimony. The party served shall have up to three calendar days to file with the Commission objections to the discovery requests on an item-by-item basis,

³ January 30, 2023, marks the expiration of six months after July 30, 2022 – the date requested rates would have been effective, but for the Commission's Suspension Order entered on July 26, 2022. N.C.G.S. § 62-135 allows implementation of temporary rates under bond if the Commission has not issued a final order upon the expiration of six months after the date the rates would have gone into effect (but for an order of suspension).

but in no event shall objections be filed later than five calendar days prior to the deadline for the filing of the Company's rebuttal testimony.

5. Formal discovery requests related to prefiled rebuttal testimony shall be served by hand delivery, facsimile, or electronic delivery with the Company's agreement, no later than two calendar days after the filing of such testimony. The party served shall have up to two calendar days to file with the Commission objections to the discovery requests on an item-by-item basis, but in no event shall objections be filed later than eight business days after the filing of such rebuttal testimony. Discovery related to rebuttal testimony shall be limited to new material introduced in such rebuttal testimony and will be carefully scrutinized upon objection that such discovery should have been sought during the initial period of discovery.

6. Discovery requests need not be filed with the Commission when served; however, objections shall be filed with the Commission and the objecting party shall attach a copy of the relevant discovery request to the objections. Each discovery request, or part thereof, to which no objection is filed, shall be answered by the time objections are due, subject to other agreement of the affected parties or other order of the Commission. Upon the filing of objections, the party seeking discovery shall have two business days to file with the Commission a motion to compel, and the party objecting to discovery shall have one business day thereafter to file a response. All objections, motions to compel, and responses shall be served on the other affected party by hand delivery, facsimile, or electronic delivery with the agreement of the receiving party, at or before the time of filing with the Commission.

7. A party shall not be granted an extension of time to pursue discovery due to that party's late intervention or other delay in initiating discovery.

The Commission urges all parties to work in a cooperative manner and to try to accommodate discovery within the time available. The Commission recognizes that in the past, most discovery has been conducted in an informal manner without the need for Commission involvement or enforcement, and that such has been generally successful. The above guidelines are without prejudice to the parties conducting informal discovery or exchanging information by agreement at any time with the understanding that such will not be enforceable by the Commission if outside the guidelines.

Further, the Commission finds good cause to require all parties who file exhibits and workpapers that include tables of numbers and calculations to provide the Commission Staff, the Public Staff, and any other party upon request from such party an electronic version of all such exhibits and workpapers, with formulas intact.

Finally, the Commission will require the Company to consult with all other parties and file, no later than Tuesday, January 3, 2023, a list of witnesses to be called at the hearing, the order of witnesses, and the estimated time for cross-examination. If the parties cannot agree, the remaining parties shall, no later than Thursday, January 5, 2023, make a filing indicating their points of disagreement with the Company's filing.

IT IS, THEREFORE, ORDERED as follows:

Witnesses calling from any number different from the number provided at registration may be delayed or experience other difficulty in providing their testimony.

Only individuals registered by 5:00 p.m. on Thursday, October 13, 2022, will be allowed to testify at the October 20, 2022, remote public witness hearing. This hearing will be canceled if no one registers to testify by 5:00 p.m. on October 13, 2022.

The hearings on October 4, October 20, October 26, and October 27, 2022, will be solely for the purpose of receiving the testimony of public witnesses in accordance with Commission Rule R1-21(g). The Commission reserves the right to limit testimony at all public witness hearings pursuant to Commission Rule R1-21(g)(5).

3. The hearings will resume in Raleigh on January 9, 2023, at 2:00 p.m., solely for the purpose of receiving expert witness testimony from the parties' witnesses and will continue as required for testimony and cross-examination of expert witnesses for the Company, the Public Staff, and other intervenors;

4. That the Commission will determine not only whether the WSIP and associated rates are just, reasonable, and in the public interest, but also the appropriate level of rates to be established for each individual rate class;

5. That the parties shall comply with the discovery guidelines established herein and shall work in a cooperative manner as to discovery;

6. That all parties filing supporting exhibits in PDF format shall provide to the Commission Staff electronic versions of the exhibits filed in native Excel format via email at NCUCexhibits@ncuc.net, where applicable, including all of the supporting tabs and formulas, within three days of the filing of such exhibits; and that Aqua and all other parties filing exhibits and workpapers that include tables of numbers and calculations shall provide the Public Staff and any other party upon request an electronic version of all such exhibits and workpapers, with formulas intact;

7. That Aqua's updates to its actual revenues, expenses, rate base, and cost of capital for the period ending August 31, 2022, shall be filed on or before Wednesday, September 21, 2022. This requirement shall not apply to events that are neither foreseeable nor within the Company's control. This requirement shall not prevent the Company from providing evidence showing changes in costs, including plant in service additions, pursuant to N.C.G.S. § 62-133(c);

8. That petitions to intervene in this proceeding shall be filed pursuant to Commission Rules R1-5 and R1-19 no later than Friday, December 2, 2022;

9. That the direct testimony and exhibits of the Public Staff and other intervenors on all subjects except the subject of the public witness hearings shall be filed no later than Friday, December 2, 2022, and that the rebuttal testimony and exhibits of Aqua, if any, shall be filed no later than Monday, December 19, 2022;

10. That the Company shall consult with all other parties and file, no later than Tuesday, January 3, 2023, a list of witnesses to be called at the hearing, the order of witnesses, and the estimated time for cross-examination. If the parties cannot agree, the remaining parties shall, no later than Thursday, January 5, 2023, make a filing indicating their points of disagreement with the Company's filing;

11. That Aqua is required to file reports addressing all customer service or service quality complaints expressed at the customer hearings within 20 days after each hearing wherein the complaint was expressed. The Public Staff shall and other intervenors may file supplemental testimony on the subject of the customer hearings only on or before Friday, December 9, 2022; and

12. That the applicable Notices to Customers, attached as Appendices A, B, and C, shall be mailed with sufficient postage or hand delivered by Aqua to the respective customers no later than September 21, 2022; and Aqua shall submit to the Commission the attached Certificate of Service properly signed and notarized no later than 15 days after the date of this Order.

ISSUED BY ORDER OF THE COMMISSION.

The Commission may consider additional or alternative rate design proposals that were not included in the original application and may order increases or decreases in the schedules that differ from those proposed by the Applicant. However, any rate structure considered will not generate more overall revenues than requested.

EFFECT OF RATES

The effect of the proposed rate increase will vary based on usage. The average monthly residential water bill, based on a three-year average usage of 4,790 gallons, would increase by approximately the percentages in the table below. The WSIP Year 1 increase includes the Proposed percentage increase, and the WSIP Year 1 through 3 increases are cumulative.

WATER AND SEWER SYSTEM IMPROVEMENT CHARGE MECHANISM

Pursuant to Commission Rules R7-39(k) and R10-26(k), the Water System Improvement Charge (WSIC) and Sewer System Improvement Charge (SSIC) shall be reset at zero as of the effective date of new base rates established by the Commission in this general rate case. If the Company's request for approval of a WSIP is granted, the WSIC and SSIC will be discontinued during the term of the WSIP pursuant to N.C. Gen. Stat. § 62-133.1B and Commission Rule R1-17A, If the WSIP is not approved, the Company plans to immediately continue use of the WSIC and SSIC.

CONSUMPTION ADJUSTMENT MECHANISM

Aqua has requested authority to implement a Consumption Adjustment Mechanism (CAM) within each of the Company's three water rate divisions, pursuant to N.C. Gen. Stat. § 62-133.12A and Commission Rules R7-40 and R10-27 if the WSIP is not authorized.² Aqua asserts that the mechanism, if approved for use, is intended to provide a true-up of the average per-customer consumption levels used to calculate rates necessary to achieve an approved revenue requirement.

CONSERVATION RATE PILOT PROGRAM

Aqua has requested authority to continue, for a selection of its residential and irrigation customers, the Conservation Pilot Program approved by the Commission in Docket No. W-218, Sub 526, which includes a revenue reconciliation component. The specific systems within the Aqua Uniform Water rate division approved for piloting are Arbor Bay (Guilford County), Pebble Bay (Catawba County), Bayleaf, and Merion (Wake County).

RATES UNDER BOND

Pursuant to N.C.G.S. § 62-134, Aqua has requested a final order be issued within six months from July 30, 2022, the proposed effective date of new rates. Otherwise, pursuant to N.C.G.S. § 62-135, Aqua intends to implement its proposed rates under bond on a temporary, interim basis subject to refund, effective for service rendered on and after six months from July 30, 2022, or January 30, 2023.

WATER AND SEWER INVESTMENT PLAN (WSIP)

This filing also includes a request for approval of a WSIP pursuant to G.S. 62-133.1B and Commission Rule R1-17A. This rate-making mechanism will allow the Company to recover the reasonably known and measurable capital investments and anticipated reasonable and prudent expenses approved under the WSIP. In support of this request, the Company has filed a three-year plan with its application which lists proposed water and sewer capital investment projects, anticipated water and sewer expenses, and the proposed rates to be effective in each year of the WSIP. By law, any rate adjustment allowed under an approved WSIP shall not, on an annual basis for years two and three of the WSIP, exceed five percent of the utility's North Carolina retail jurisdictional gross revenues for the preceding plan year. The Commission may, however, consider the addition of certain unplanned emergency capital investments even if such expenditures would cause the cap to be exceeded. The Commission may also terminate or modify any WSIP approved in this case if it determines that termination or modification is in the public interest.

In this WSIP, the Company has requested that the Commission allow it to recover water service revenues for the uniform rate division of \$51,679,032 in year one, \$54,263,192 in year two, and \$56,956,075 in year three. If the WSIP is approved without modifications, the average monthly water bill for a typical residential uniform customer (based upon monthly water usage of 4,790 gallons) would be \$65.26 in year one, \$68.25 in year two, and \$71.38 in year three.

In this WSIP, the Company has requested that the Commission allow it to recover sewer service revenues for the uniform rate division of \$22,243,104 in year one, \$23,359,021 in year two, and \$24,526,865 in year three. If the

¹ The effect of the proposed rates for this system is the result of the SSIC being reset to zero as of the effective date of new base rates established by the Commission in this general rate case.

² Pursuant to N.C.G.S. § 62-133.12A, any rate adjustment mechanism authorized pursuant to N.C.G.S. § 62-133.12A shall be discontinued during the term of any WSIP.

WSIP is approved without modifications, the average monthly sewer bill for a typical residential uniform customer (based upon monthly water usage of 4,610 gallons) would be \$90.60 in year one, \$90.88 in year two, and \$92.29 in year three.

All service areas unless noted differently below	0.63%	0.00%	0.00%	0.00%	0.00%

The Water System Improvement Charge is applied to the total water utility bill of each customer under the Applicant's applicable rates and charges.

The Commission may consider additional or alternative rate design proposals that were not included in the original application and may order increases or decreases in the schedules that differ from those proposed by the Applicant. However, any rate structure considered will not generate more overall revenues than requested.

EFFECT OF RATES

The effect of the proposed rate increase will vary based on usage. The average monthly residential water bill, based on a three-year average usage of 4,750 gallons, would increase approximately by the percentages in the table below. The WSIP Year 1 increase includes the Proposed percentage increase, and the WSIP Year 1 through 3 increases are cumulative.

WATER SYSTEM IMPROVEMENT CHARGE MECHANISM

Pursuant to Commission Rule R7-39(k), the Water System Improvement Charge (WSIC) shall be reset at zero as of the effective date of new base rates established by the Commission in this general rate case. If the Company's request for approval of a WSIP is granted, the WSIC will be discontinued during the term of the WSIP pursuant to N.C.

Gen. Stat. § 62-133.1B and Commission Rule R1-17A, If the WSIP is not approved, the Company plans to immediately continue use of the WSIC.

CONSUMPTION ADJUSTMENT MECHANISM

Aqua has requested authority to implement a Consumption Adjustment Mechanism (CAM) within each of the Company's three water rate divisions, pursuant to N.C. Gen. Stat. § 62-133.12A and Commission Rule R7-40 if the WSIP is not authorized.⁴ Aqua asserts that the mechanism, if approved for use, is intended to provide a true-up of the average per-customer consumption levels used to calculate rates necessary to achieve an approved revenue requirement.

RATES UNDER BOND

Pursuant to N.C.G.S. § 62-134, Aqua has requested a final order be issued within six months from July 30, 2022, the proposed effective date of new rates. Otherwise, pursuant to N.C.G.S. § 62-135, Aqua intends to implement its proposed rates under bond on a temporary, interim basis subject to refund, effective for service rendered on and after six months from July 30, 2022, or January 30, 2023.

WATER AND SEWER INVESTMENT PLAN (WSIP)

This filing also includes a request for approval of a WSIP pursuant to G.S. 62-133.1B and Commission Rule R1-17A. This rate-making mechanism will allow the Company to recover the reasonably known and measurable capital investments and anticipated reasonable and prudent expenses approved under the WSIP. In support of this request, the Company has filed a three-year plan with its application which lists proposed water and sewer capital investment projects, anticipated water and sewer expenses, and the proposed rates to be effective in each year of the WSIP. By law, any rate adjustment allowed under an approved WSIP shall not, on an annual basis for years two and three of the WSIP, exceed five percent of the utility's North Carolina retail jurisdictional gross revenues for the preceding plan year. The Commission may, however, consider the addition of certain unplanned emergency capital investments even if such expenditures would cause the cap to be exceeded. The Commission may also terminate or modify any WSIP approved in this case if it determines that termination or modification is in the public interest.

In this WSIP, the Company has requested that the Commission allow it to recover water service revenues for the Brookwood water rate division of \$9,195,653 in year one, \$9,639,278 in year two, and \$10,115,063 in year three. If the WSIP is approved without modifications, the average monthly water bill for a typical residential Brookwood water customer (based upon monthly water usage of 4,750 gallons) would be \$52.55 in year one, \$55.09 in year two, and \$57.75 in year three.

Pursuant to N.C.G.S. § 14-269.4, absent certain specific exceptions, it is unlawful for any person to possess, or carry, whether openly or concealed, any deadly weapon, not used solely for instructional or officially sanctioned ceremonial purposes, in any building housing any court of the General Court of Justice. Therefore, weapons are strictly prohibited at the hearings scheduled in this docket in the Commission's Hearing Room.

The Public Staff is authorized by statute to represent consumers in proceedings before the Commission. Written statements to the Public Staff should include the name of the subdivision where the customer is receiving service, contact information, and any information that the writer wishes to be considered by the Public Staff in its investigation of the matter; these statements should be addressed to Mr. Christopher J. Ayers, Executive Director, Public Staff, 4326 Mail Service Center, Raleigh, North Carolina 27699-4326. Written statements may also be faxed to 919-715-6704.

The Attorney General is also authorized by statute to represent consumers in proceedings before the Commission. Statements to the Attorney General should be addressed to The Honorable Josh Stein, Attorney General, 9001 Mail Service Center, Raleigh, North Carolina 27699-9001. Written statements may also be e-mailed to utilityAGO@ncdoj.gov.

Written statements are not evidence unless those persons appear at a public hearing and testify concerning the information contained in their written statements.

Persons desiring to intervene in the matter as formal parties of record should file a petition pursuant to North Carolina Utilities Commission Rules R1-5, R1-7, and R1-19 no later than [Same date as date Public Staff and other intervenor testimony is due]. These petitions should be filed with the North Carolina Utilities Commission, 4325 Mail Service Center, Raleigh, North Carolina 27699-4300.

WATER AND SEWER SYSTEM IMPROVEMENT CHARGE MECHANISM

Pursuant to Commission Rules R7-39(k) and R10-26(k), the Water System Improvement Charge and Sewer System Improvement Charge shall be reset at zero as of the effective date of new base rates established by the Commission in this general rate case. If the Company's request for approval of a WSIP is granted, the WSIC and SSIC will be discontinued during the term of the WSIP pursuant to N.C. Gen. Stat. § 62-133.1B and Commission Rule R1-17A, if the WSIP is not approved, the Company plans to immediately continue use of the WSIC and SSIC.

CONSUMPTION ADJUSTMENT MECHANISM

Aqua has requested authority to implement a "Consumption Adjustment Mechanism" (CAM) within each of the Company's three water rate divisions, pursuant to N.C. Gen. Stat. § 62-133.12A and Commission Rules R7-40 and R10-27 if the WSIP is not authorized.⁵ Aqua asserts that the mechanism, if approved for use, is intended to provide a true-up of the average per-customer consumption levels used to calculate rates necessary to achieve an approved revenue requirement.

RATES UNDER BOND

Pursuant to N.C.G.S. § 62-134, Aqua has requested a final order be issued within six months from July 30, 2022, the proposed effective date of new rates. Otherwise, pursuant to N.C.G.S. § 62-135, Aqua intends to implement

its proposed rates under bond on a temporary, interim basis subject to refund, effective for service rendered on and after six months from July 30, 2022, or January 30, 2023.

WATER AND SEWER INVESTMENT PLAN (WSIP)

This filing also includes a request for approval of a WSIP pursuant to G.S. 62-133.1B and Commission Rule R1-17A. This rate-making mechanism will allow the Company to recover the reasonably known and measurable capital investments and anticipated reasonable and prudent expenses approved under the WSIP. In support of this request, the Company has filed a three-year plan with its application which lists proposed water and sewer capital investment projects, anticipated water and sewer expenses, and the proposed rates to be effective in each year of the WSIP. By law, any rate adjustment allowed under an approved WSIP shall not, on an annual basis for years two and three of the WSIP, exceed five percent of the utility's North Carolina retail jurisdictional gross revenues for the preceding plan year. The Commission may, however, consider the addition of certain unplanned emergency capital investments even if such expenditures would cause the cap to be exceeded. The Commission may also terminate or modify any WSIP approved in this case if it determines that termination or modification is in the public interest.

In this WSIP, the Company has requested that the Commission allow it to recover water service revenues for the Fairways water rate division of \$2,261,882 in year one, \$2,377,333 in year two, and \$2,492,967 in year three. If the WSIP is approved without modifications, the average monthly water bill for a typical residential Fairways water customer (based upon monthly water usage of 6,530 gallons) would be \$30.99 in year one, \$31.89 in year two, and \$32.75 in year three.

In this WSIP, the Company has requested that the Commission allow it to recover sewer service revenues for the Fairways sewer rate division of \$3,775,477 in year one, \$3,819,361 in year two, and \$3,946,569 in year three. If the WSIP is approved without modifications, the average monthly sewer bill for a typical residential Fairways sewer customer (based upon monthly sewer usage of 6,500 gallons) would be \$96.09 in year one, \$95.56 in year two, and \$97.09 in year three.
