

# DUKE ENERGY CUSTOMERS REFUSE TO PAY DATA CENTER ELECTRIC BILLS!

An A.I. Data Center... is this worth increasing your electric bill?

## ELECTRICITY RATE HIKE HEARING APRIL 13 - 7PM PERSON COUNTY COURTHOUSE

105 S. Main St., Roxboro, NC

**What's going on:** The NC Utilities Commission is holding a meeting on whether Duke Energy can increase rates (by 18% on average).

### How it affects bills:

- Duke Energy Progress & Piedmont are partners on the 2nd gas plant being built on **Hyco Lake**. It was only added AFTER big industrial customers, including **Microsoft**, asked to connect to the electrical grid.
- **We're being charged for it**, but it wasn't necessary to serve our needs. **Now we hear that Microsoft & other datas are coming to Person County & elsewhere.. why are we paying for this again?**

COME TO THE HEARING
